- 1. CONDITIONS:
- 1.1 All Lab Staff.
- 2. PURPOSE:
- 2.1 This policy offers guidelines for the use of personal protective equipment will minimize the risk of transmission of diseases to patients, visitors and staff at laboratory Unit.
- 3. **DEFINITIONS**:
- 3.1 **Safety:** is the state of being "safe", the condition of being protected against physical, social, spiritual, financial, political, emotional, occupational, psychological, educational or other types or consequences of failure, damage, error, accidents, harm or any other event which could be considered non-desirable. This can take the form of being protected from the event or from exposure to something that causes health or economical losses. It can include protection of people or of possessions.
- 3.2 **A hazard:** is a situation that poses a level of threat to life, health, property, or environment. Most hazards are dormant or potential, with only a theoretical risk of harm; however, once a hazard becomes 'active', it can create an emergency situation. A hazard does not exist when it is happening. A hazardous situation that has come to pass is called an incident. Hazard and vulnerability interact together to create.
